Commercial Proposal - Enterprise Cloud Hosting 2026

1. Service Level Agreement & Availability
The platform guarantees 99.99% monthly uptime availability with financial penalties.
Zero data loss is guaranteed across failovers with synchronous replication.

2. Security & Compliance
All customer data at rest is encrypted using AES-256 and TLS 1.3 in transit.
The hosting infrastructure is ISO 27001 and SOC 2 Type II certified.

3. Support, Delivery & Performance

Dedicated 24/7 engineering support with a 15-minute response time for P1 incidents.

We will provide a dedicated on-site solutions architect for 6 months included.

The platform delivers optimal world-class AI performance and seamless scalability.

Full production migration will be delivered turnkey within 4 weeks of signature.
